

**RESTRICTION OF PRACTICE RIGHTS – CLIFFORD PROCTOR, P.ENG,
VICTORIA, B.C.**

A complaint was made to the Association relating to deficient wastewater treatment and disposal systems services provided by Mr. Proctor, for property situated in Victoria, BC. The complaint was investigated by the designated reviewer.

The Association's Discipline Committee has approved an agreement that, in lieu of the Association proceeding with a disciplinary inquiry, Mr. Proctor will cease practising in the areas of wastewater treatment and disposal systems effective June 29, 2007 and will transfer any on-going projects to other members qualified to practice in these areas. If at some point in the future Mr. Proctor wishes to remove his practice restriction, he may do so on proof of further training in wastewater treatment and disposal systems acceptable to the Registrar of the Association.
